

The Spa located in Aruba & St. Maarten

We Can't Wait to Transform Your Day!

At Indulgence Spas, we treat our employees and guests like family and take pride in being guardians of health and wellness within our Resorts and community.

We are excited to work toward re-opening and to fulfill the need for physical touch, community, and human connection we have all been craving. Our current re-opening plans are detailed below and show how we are planning to welcome you back.

Your health and safety always come first with our standard extensive cleaning protocols. During this time, we have added extra sanitizing and disinfecting measures. As always, we ask that guests and employees stay at home if they are feeling unwell, displaying symptoms, or recovering from an illness.

We've always prided ourselves on making sure our salon & spas go above and beyond for your health and well-being with our extensive standard cleaning protocols.

As always, our standard cleaning includes:

- Hospital-grade professional cleaning solutions that are 99.99% effective in destroying harmful germs, viruses, and bacteria.
- Daily deep-cleaning of all amenities and locations within the spa.
- Cleaning and disinfecting of all treatment rooms after every service.
- Each Massage Therapist, Esthetician, Nail Tech and Stylist have received training on topics like Health and Hygiene, Sanitation and Disinfection.

Additionally, we are implementing:

- Increased hours for our cleaning staff to continually sanitize and disinfect commonly touched surfaces, door handles, and shared amenities throughout the day.
- Extra hours for training all employees on new protocols.
- Guests must sanitize hands before entering the spa and prior to your spa treatments.
- Physical distancing markers will be visible to help maintain a distance of 1.5 meters from other guests in the common areas.

- Additional hand sanitizing stations for both guests and employees, along with sanitizing spray in showers and all common areas.
- Masks are required to be worn at all times throughout your spa services by our therapist and are highly recommended that clients also wear one.
- Personal Protective Equipment (PPE) is provided to all employees.
- All employees and guests will undergo wellness checks and symptom screenings.
- Appointments will be scheduled to adhere to social distancing amongst clients.
- Locker assignments will be allocated to allow for physical distancing.
- Self Service areas for drinks & fruit will be temporarily removed as well as magazines.
- Friends or family without an appointment will not be permitted in the facility, except a parent accompanying a minor.

We always strive to implement services, treatments, and experiences to enhance and maintain the health and well-being of our guests and employees.

As always, we offer:

- Complimentary wellness enhancing teas with antioxidant and antimicrobial benefits.
- Massage therapy modalities focused on improving circulation; studies have shown this to increase the body's white blood cell count which works to combat viruses.
- A detoxifying steam treatment with every facial to eliminate bacteria in the air, reduce inflammation, and purify the skin to remove toxins and impurities.

Maintaining a healthy environment has always been critically important to us and following the guidance of reputable professional and governmental organizations is our standard practice.

**All of the aforementioned guidelines are subject to change based on the guidance of the above organizations and may be phased out as guidelines progress.*

All guests are required to complete a COVID-19 waiver in addition to standard waiver(s). We reserve the right to decline service to any guest who does not pass our COVID-19 wellness check or who displays symptoms of COVID-19. Those who are declined may reschedule their service for a later date.
